Industrial Production Affected by Import Curbs

368. **MISS SAROJ KHAPARDE: Will the PRIME MINISTER be pleased to state:**

(a) whether it is a fact that the industrial production in the first half of the current year has been adversely affected by the recent import curb imposed by the RBI;

(b) if so, the details thereof; and

(c) whether Government propose to reduce or remove those import curbs and if so, the details thereof?

THE MINISTER OF STATE IN THE MINISTRY OF INDUSTRY (SHRI P. J. KURIEN): (a) and (b) According to the Index of Industrial Production compiled by CSO which is available upto March, 1991 the month-wise rates of industrial growth from January, 1991 onwards are as follows:

Period	Rate of Growth
January, 1991	4.3
February, 1991	6.3
March, 1991	7.2

The curbs on financing of imports were imposed by RBI with effect from 19th March, 1991. In the absence of availability of Index of Industrial Production from April, 1991 onwards, it is difficult to say that the curbs imposed by RBI have adversely affected industrial production.

Many manufacturing units have carried on production during the last quarter with the inventories of raw materials and components already available. With the depletion of inventories and with continuation of RBI curbs on financing of imports, the industrial production may get adversely affected.

(c) The Government is constantly reviewing the import curbs which have become inevitable due to the tight balance of payments possible and it is proposed to reduce and remove the curbs on imports as and when the balance of payment situation permits.
